Hi Gary,

Sorry for my lack of response. I was on Annual Leave last week. I did take my laptop with the intent of monitoring my e-mails during the week, but I forgot to bring my Smartcard with me, which essentially made my laptop useless.

I see Philip Ofosu responded to you on Thursday by providing a copy of an SSSR form for the site dated October 2001. Looks like we assessed it and designated it as NFRAP.

Please let me know if you need any other information regarding the site. Also, 2000-2001 was nearly 20 years ago and site conditions may have changed significantly during that time. If you think we need to take another look at this site, let me know.

Thanks,

Bret Kendrick

Bret:

Can you tell me if you guys are even looking at this site and who the site assessment manager is for it?
